## Advantages for end users

With Edi, employees can conveniently submit all expenses digitally and according to internal guidelines. Thanks to OCR recognition and artificial intelligence, Edi takes care of almost all tasks, leaving more time for more important things.

## Advantages for supervisors

Simple approval process. All expenses are always clear to see and users are kept up to date with notifications.

## Advantages for the Finance team

Edi uses OCR recognition to read the VAT and archives the receipts in a way that is audit-proof. Thanks to integration in the financial system, flawless transfer of accounting and payout is guaranteed. And compliance guidelines are always adhered to in the process.
