

Business credit cards – everything at a glance

Based on the data transfer from Viseca, Edi automatically knows which receipt relates to cash or credit card spending. Simply scan the receipt after the purchase with the credit card, wait for the match and then settle the receipt – and you're done!

Credit card centre

The integrated credit card centre makes Edi a holistic credit card solution. All information is stored centrally in one place so that cards, transactions and invoices can be managed easily and efficiently.

Your advantages with Viseca

Viseca credit cards are automatically integrated into Edi:
This means business expenses are visible and manageable in real time in the expenses tool.

Preferential conditions for Viseca customers

- You benefit from exclusive preferential conditions for the Edi expenses tool
- All information about the cards as well as further information about the Edi expenses tool can be found at:

viseca.ch/edi

edi-app.io/produkt/kreditkarten

Additional functions

- Automatic setting of the accounting period
- Download of monthly statements directly in Edi
- Real-time notifications after executed transaction, as well as reminders in case of missing documents
- Assignment of several employees to shopping cards
